Additional Comments include discription of condition:

This well cared for late 2003 inflatable was not dropped until May 2004, and has been the tender and ski boat for my sailboat since then. The tubes were replaced in October 2006. The Rendova is one of the best inflatables out there - rigid body overlaps above the tubes, providing safer access & exit, positive buoyancy, more seating room and a drier ride. It comes with a Yamaha 4-stroke 60HP high-thrust engine (about 1,000 hours but serviced very often). The engine cowl does have damage - it has a padded cover. Available in Cape Cod, Massachusetts or nearby. More pictures on e-mail request.
