"Tilt Davits" For Inflatables

FEATURES

- The low profile tilt position is approximately 35°. This allows the motor and fuel tank to remain on the tender when stowed.
- Smooth, manual one-person launch or retrieval utilizing the included block-and-tackle and cleat.
- Hinged base, mounted on swim step allows davit to disconnect at top and swing into the water, clearing the swimstep when tender is launched.
- Lightweight, highly polished, marine-grade stainless steel tubing prevents corrosion for a trouble free operation.
- Low profile stowage position provides exceptional stern visibility with virtually no air cupping or drag.

ST 275

Roskelley/Olsson the makers of Davits with outer beauty and inner strength.
